Experience

Amazon Music · Ad Monetization

Software Development Engineer II | Dec 2024 – Present

- Extending Amazon's ad tech stack to serve video ads on Amazon Music, a projected \$10M annual revenue opportunity
- Designed the architecture for Amazon Music's first display ads platform, a \$4M+ opportunity, connecting the home-page content stack to ad serving
- Utilized learned customer behavior to serve extended ad-pods to ad-tolerant customers, raising total ad revenue for Amazon Music by 2.3% in the US
- Designed and launched a Sponsored Sessions experiment, letting advertisers sponsor 30 minutes of ad-free listening on Alexa and mobile.
- Led 12+ upsells across iOS, Android, and Fire TV for the India Free Tier launch, mentoring 2 engineers and contributing to 6.8K more weekly sign-ups
- Co-built a GenAI ticket triage system that de-duplicates, re-routes tickets, and triages tickets closing 281K duplicate tickets in the first week.
- Built a team-wide AI agent platform with skills and a custom code and doc knowledgebase, accelerating onboarding and development.

Amazon Ads · Display Ad Serving

Software Development Engineer | Sept 2023 – Nov 2024

- Led migration of 4 Fire TV display ad formats (60K+ TPS) from a legacy ad server to an OpenRTB exchange, enabling deals, auctions, and compliance.
- Launched an Asia-Pacific ad server region next to the ad exchange, cutting Fire TV ad timeouts 82% and serving 15M more ads in the first month
- Built a compliance layer across 3 privacy services enforcing EU DMA consent, child-profile ad filtering, and Quebec cookie consent.

Amazon Ads

Software Engineer Intern | Summers 2021 & 2022

- Cut costs 78% for a device cache serving 30M requests per hour through infrastructure and code overhauls, projecting \$1M in annual savings
- Built a full-stack web app for editing a configuration database, with type-checking, version history, and access control to manage changes.

Skills

AdTech

Ad Serving	Ad Decisioning
Targeting	Deals
Frequency Capping	Audio
Video	Display

Backend

Java (Spring)	TypeScript &
Python (Django, Flask)	JavaScript (Node.js)

Frontend & Mobile

React (Web)	Swift (iOS)
Kotlin & Java (Android)	

AWS

EC2	ECS & Fargate
Lambda	SQS & SNS
CloudWatch	IAM

Databases

DynamoDB	Redis (ElastiCache)
SQL (RDS)	MongoDB
S3	

AI Tools

Claude Code	Codex
Kiro	

Education

University of California, Los Angeles | 2022

B.S. Computer Science
